

PANTAFlix AG adjusts forecast for the current financial year due to shift in revenues

München, 3 December 2018. PANTAFlix AG (GSIN: [A12UPJ](#), ISIN: [DE000A12UPJ7](#)) adjusts its forecast for the current financial year (HGB) due to a temporarily shift of recognition in revenues of two film projects already produced but not completed until the first half of 2019. Despite this shift in the double-digit million euro range, the Management Board continues to expect a significant increase in consolidated revenues for the year 2018 as a whole with double-digit percentage growth. Contrary to the targeted improvement for the 2018 fiscal year, the earnings forecast now develops to a consolidated EBIT of between minus EUR 7 million and minus EUR 9 million, corresponding to a consolidated net loss for the year at approximately the same level with a significant increase in revenues for the current 2018 fiscal year.
